Profile

Hello there, I'm Odutola Israel - a Full-Stack web-developer with a passion for creating digital

Languages

- English
- Yoruba

Certifications

- **Introduction to Frontend Development**

  Simplilearn - 2024

- **Full-Stack Development 101**

  Simplilearn - 2024

- **Advanced Javascript**

  Upgrad - 2024

- **Backend Development bootcamp**

  Fpro - 2024

- **React 18 and**

experiences that are both beautiful and accessible. My mission is to build websites and applications that delight users, while also making them easy to use and navigate for everyone.

With years of experience in Full-Stack development, I specialize in creating responsive, user-friendly interfaces using Both Front-End and Back-End Languages. I pay close attention to detail, always striving to make sure that every interaction is smooth, intuitive, and visually appealing. I'm also a strong advocate for web accessibility, ensuring that all my projects are accessible to all.

Work Experience

Sep 2023 - Dec 2023

Frontend Developer - Standard Success Tech Hub

- Coded using Html5, Bootstrap and TailwindCSS to develop features for both mobile and desktop platforms.
- Designed and updated layouts to meet usability and performance requirements.
- Worked with product designers, backend developers, and the whole team to develop projects and Assignment
- Adhered to best practices while building each task and Assignment
- Worked with Editors to fine-tune articles written, which improved my personal editing skills.

Dec 2023

BackEnd Developer - Fpro Computer College

Projects Course - Feb 2024

- Built a web server and make it internet-accessible using frameworks like React, JavaScript, Jquery.
- Understand encryption, basic PCI requirements
- Use POST/PUT calls to update the database and GET calls to return data
- Followed company policies and editorial guidelines to craft thorough, well-written content.
- Well Encrypted Database System

freecodecamp - 2023

- **Frontend development bootcamp**

SSETH - 2023

📖 Exploring self-help books

Mar 2024

Learnt React- FreecodeCamp

In FreeCodeCamp's React curriculum, I learned how to build modular web applications using components, manage state and props for data flow, handle events and forms efficiently, utilize lifecycle methods, integrate React Router for navigation, fetch data from APIs, implement React Hooks for functional components, and test applications for reliability using Jest and React Testing Library.

Mar 2024 - Present

Freelance Web Developer - Fiverr

- Designed front-end applications, and user interactive (UI) web pages using web technologies like HTML5, CSS3, Javascript, and Bootstrap4.
- Edited HTML/CSS/JavaScript and plugins via WordPress/WPengine, and fixed bugs with existing Shopify websites
- Increased traffic and enhanced page ranking by improving website structure, performing Search Engine Optimization (SEO) and Search Engine Marketing (SEM) for local improvements.

Jul 2024

Advanced Javascript Developer - Upgrad

- Learnt Advanced JavaScript Concepts around client-side functioning, versions of language and async

Jul 2024　**Full-Stack Development 101** - Simplilearn

- **Front-End Development:** Learnt the essentials of front-end web development, including HTML, CSS, and JavaScript. Explored responsive design to create user-friendly and visually appealing interfaces.

- **Back-End Development:** Dived into server-side scripting, databases, and API integration. Discovering how to manage data, interact with servers, and build the functional backbone of web applications.

- **Problem Solving:** Developed critical problem-solving skills essential for full-stack developers. Gained insights into troubleshooting, debugging, and efficient coding practices to create robust web applications.
